International Endodontic Journal (1987) **20**, 309–311

Author and Subject Index to Volume 20

Access cavities
see Wilcox & Walton 223
Accessory root
see Tidmarsh 98
Alaçam, T. Scanning electron microscope study comparing the efficacy of endodontic irrigating systems 287
Al-Khatib, Z. *see* Zidan, O.
Aluminium
see Meryon & Jakeman 16
Amalgam
see Tobias, Plant & Browne 8
Antiseptics
see Stabholz, Stabholz, Friedman, Heling & Sela 211

Bacteria
see Heide & Kerekes 65, Paterson & Watts 112, Paterson & Pountney 159, Watts & Paterson 169, Stabholz, Stabholz, Friedman, Heling & Sela 211
Barnes, I.E. *see* Wilson, P.R.
Beatty, R.G. The effect of standard or serial preparation on single cone obturations 276
Beer, R., Gängler, P. & Rupprecht, B. Investigation of the canal space occupied by gutta-percha following lateral condensation and thermomechanical condensation 271
Bond strength
see Jeffrey & Saunders 217
Browne, R.M. *see* Tobias, R.S.

Calcium hydroxide
see Heide & Kerekes 65, Zmener 87, Watts & Paterson 169, Warfvinge, Rozell & Hedström 183
Canal drying
see Wakabayashi, Masumoto, Tachibana & Tuzuki 298
Canal preparation
see Lim & Stock 33, Genet, Hart, Wesselink & Thoden van Velzen 53, Walmsley 105, Spyropoulos, ElDeeb & Messer 133, Beatty 276
Case report
see Lui 30, Tidmarsh 98, Tamse & Katz 295
Cergneux, M., Ciucchi, B., Dietschi, J.M. & Holz, J. The influence of the smear layer on the sealing ability of canal obturation 228
Chenail, B.L. *see* Teplitsky, P.E.
Ciucchi, B. *see* Cergneux, M.
Composite resin
see Stokes 1
Cytotoxicity
see Meryon & Jakeman 16

Dietschi, J.M. *see* Cergneux, M.
Dummer, P.M.H. & Lewis, J.M. An evaluation of the Endometric Probe in root canal length estimation 25

ElDeeb, M.E. *see* Spyropoulos, S.

Formaldehyde
see Lambjerg-Hansen 194
Forsberg, J. A comparison of the paralleling and bisecting-angle radiographic techniques in endodontics 177
Forsberg, J. Estimation of the root filling length with the paralleling and bisecting-angle techniques performed by undergraduate students 282
Friedman, S. *see* Stabholz, A.

Gängler, P. *see* Beer, R.
Genet, J.M., Hart, A.A.M., Wesselink, P.R. & Thoden van Velzen, S.K. Preoperative and operative factors associated with pain after the first endodontic visit 53
Glass ionomer cement
see Meryon & Jakeman 16
Gomez-Marin, O. *see* Zidan, O.
Gutmann, J.L. & Rakusin, H. Perspectives on root canal obturation with thermoplasticized injectable gutta-percha 261
Gutta-percha
see Lui 30, Wilson & Barnes 94, Hardie 122, Zidan, Al-Khatib & Gomez-Marin 128, Stabholz, Stabholz, Friedman, Heling & Sela 211, Jeffrey & Saunders 217, Gutmann & Rakusin 261, Beer, Gängler & Rupprecht 271

Hardie, E.M. Further studies on heat generation during obturation techniques involving thermally softened gutta-percha 122
Hart, A.A.M. *see* Genet, J.M.
Heat
see Hardie 122, Gutmann & Rakusin 261
Hedström, K.-G. *see* Warfvinge, J.
Heide, S. & Kerekes, K. Delayed direct pulp capping in permanent incisors of monkeys 65
Heling, I. *see* Stabholz, A.
Histological study
see Tobias, Plant & Browne 8, Heide & Kerekes 65, Watts & Paterson 82, Paterson & Watts 112, Paterson & Pountney 159, Watts & Paterson 169, Warfvinge, Rozell & Hedström 183, Lambjerg-Hansen 194
Holz, J. *see* Cergneux, M.

Irrigation
